THE HIGHEST QUALITY MOTORIZED SOLUTIONS TO PUT YOUR TECHNOLOGY IN MOTION

Nexus 21 is the leader in reliable, ultra-quiet, motorized solutions that put technology in motion. From television pop-up and ceiling lifts, to projector and storage concealment mechanisms, to motorized wall mounts, we break down the barriers of conventional design and room orientation with covert integrations for any space.

Our products are the quietest, most reliable and easiest to install on the market. Based in the United States, we back every motorized system with the industry's longest and most comprehensive warranty, making our solutions the perfect choice for professionals and homeowners alike.

TV LIFTS

Pop-Up TV Lifts

Our flagship series. This comprehensive line of ultra-quiet motorized pop-up lift solutions made Nexus 21 the world leader in hidden TV lifts and motorized solutions.

Homeowners and professionals are often challenged with placing screens throughout living spaces while maintaining the flow of decor. Large, stationary TVs can block stunning window views and dominate space, even when they're not in use.

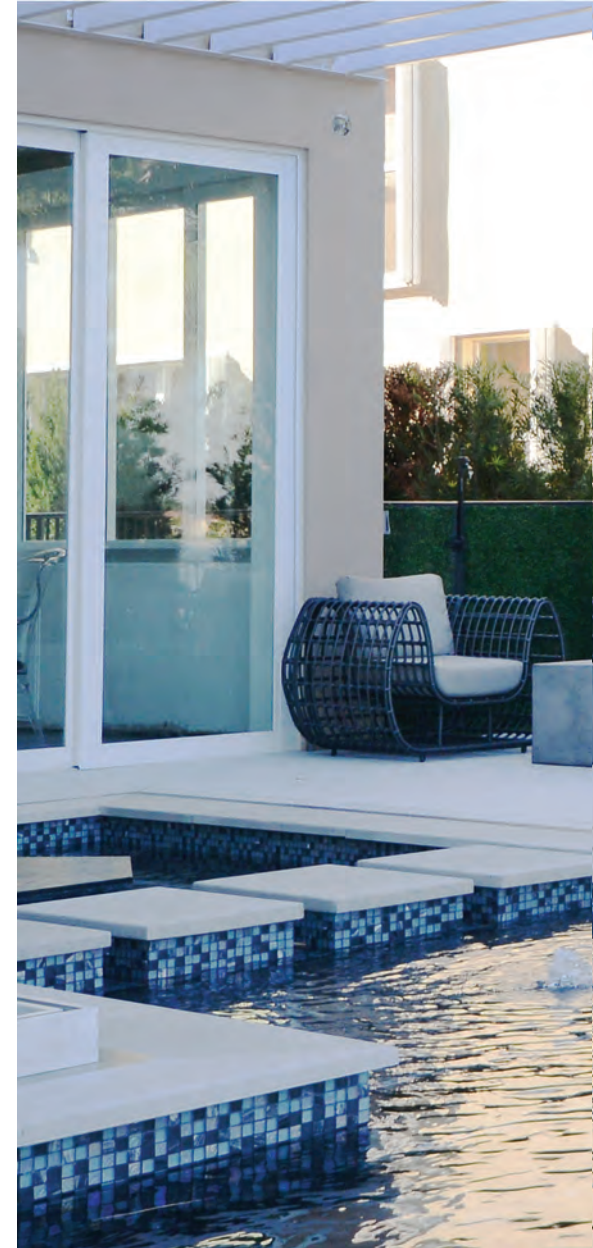

Our pop-up TV lifts can be built into cabinets, beds and other furniture—or even under the floor—to maximize and preserve the balance of a space.

POP-UP & POP-UP SWIVEL TV LIFTS

Available with or without swivel, our pop-up TV lifts accommodate screens from 17" to 90".

SPECIALTY POP-UP TV LIFTS

To handle less common applications, we offer enclosure, dual-screen, heavyweight and extended-travel TV lifts. You can add an aesthetic cover to conceal the back of the TV, lift multiple screens at once, accommodate specialty televisions or lift a screen from beneath the floor.

MODEL XL-85 Extended Travel Pop-Up TV Lift

CEILING SOLUTIONS

Drop-Down & Flip-Down TV Lifts

Technology can emerge from anywhere in the home—including the ceiling. Whether you need to preserve an incredible view, or simply prefer the minimalist aesthetic, the possibilities are endless with drop-down and flip-down TV lifts.

MODEL L-77ix Ceiling Drop-Down TV Lift with Motorized Swivel

MODEL CL-65e Ceiling Flip-Down + Extend TV Lift

DROP-DOWN TV LIFTS

Our drop-down TV lifts accommodate screens from 17" to 77", allowing them to descend from the ceiling with the touch of a button, and be hidden away when not in use.

FLIP-DOWN TV LIFTS

Our flip-down TV lifts feature ultra-slim installation depth requirements, and fold screens flat into the ceiling for 100% concealment at the touch of a button.

MOTORIZED WALL MOUNTS

Optimal screen positioning is key to any living room or gathering area. The Apex Motorized Extend + Swivel TV Wall Mount revolutionizes positioning technology with a seamless blend of high function and sleek aesthetics. Apex delivers where all other mounts fail, with "Smart Drive" technology to prevent breakage, nearly gapless in-wall mounting, and simple installation that make this mount a standout.

APEX Extend + Swivel Motorized TV Wall Mount

ECIPSE E-550 Projector Drop-Down Lift with Adjustable Mount

PROJECTOR LIFTS

Eclipse Series Projector Drop-Down Lifts

The Eclipse Series is the ultimate in stealth concealment for residential projectors, featuring the most innovative installation features on the market and a sleek presentation. Accommodates 400+ projector models.

STORAGE LIFTS

Appliances & Unique Applications

Reclaim dead space with a Nexus 21 hidden storage lift. Conceal coffee stations or other appliances, hide valuables, create more storage space, or reveal a show-stopping hidden bar. The possibilities are endless.
